

Vol. 6-2002

**Associação Latino-Americana de
Geoquímica Orgânica**

**REVISTA LATINO-AMERICANA
DE
GEOQUÍMICA ORGÂNICA**

Asociación Latinoamericana de Geoquímica Orgánica

To The Members of ALAGO

The Latin American Association of Organic Geochemistry – ALAGO has pursued the objective to help the development of the organic geochemistry through the organization of congresses, workshops, and the publication of the “Revista Latino-Americana de Geoquímica Orgânica”.

However, the submission of papers along the time has not been made under regular basis. This situation brought some problems to keep the publication of, at least, one volume per year. The volume 5 was published in 1999, and the volume 6 is in press. Therefore, to make up the 1999-2002 publication gap volume 6 will be issued as 2002.

Any way, we hope that “Revista Latino-Americana de Geoquímica Orgânica” receive a larger number of contributions in the next future, especially because we will have the 8th Congress on Organic Geochemistry during October 20-24, 2002.

We look forward hoping seeing you all in Cartagena de Indias, Colombia.

Eugenio Vaz dos Santos Neto

President of the Latin American Association of
Organic Geochemistry – ALAGO

ÍNDICE

W. Kalkreuth ¹ , M. Ade ¹ , G. Henz ² , H. Ganz ³ and K. Kommeren ⁴	SOURCE ROCK MATURITY IN THE CENTRAL AND VIKING GRABEN STRUCTURES, NORTH SEA – EVALUATION OF OPTICAL AND GEOCHEMICAL (ROCK EVAL, INFRARED SPECTROSCOPY) MATURITY PARAMETERS	05
M.V.B. ADE ¹ & M.J. LEMOS DE SOUSA ²	ESTUDO COMPARATIVO EM LUZ REFLETIDA ENTRE DUAS TÉCNICAS DE CONCENTRAÇÃO DE MATERIA ORGÂNICA DISPERSA (AMOSTRA ACIDIFICADA versus AMOSTRA "LIGHT FRACTION")	23
Justo Camejo Ferreira	LIGHT HYDROCARBONS IN SOILS UNDERLAIN BY EXCLUSIVELY CRYSTALLINE ROCKS AND IN SEDIMENTARY BASINS: EXPLORATORY IMPLICATIONS	31
Olga Castro Castiñeira	CLASIFICACION DE LOS PETROLEOS EN EL YACIMIENTO PINA MEDIANTE TÉCNICAS DE LA ESTADÍSTICA MULTIVARIADA.	40
